ABOUT ME

As a left-brained creative I have the ability to maintain creativity, but work at a fast pace, and in an organized fashion. I am able to see the logical and mechanical parts of a project, but also work it through to the creative, final product. To the workplace, I come equipped with my integrity and work ethic, which allows me to not be afraid to get my hands dirty and have fun, as I approach each project as a clean slate and take on the next challenge.
